

Solving Logic Problems
The Math of True and False
Kat's Cat Checker

Professor Bob Brown – Kennesaw State University

Write the whole expression for Kat's ideal cat:

Exercise

A logician goes into a restaurant and says, "I want a hamburger or a hotdog and French fries."

Assume AND takes precedence over OR; the English "or" is exclusive $\mathbb{W}r-1(h\ w)-\mathbb{T}m(OR)Tj0\ T2.6\ Tf-0.0h$
